a new yorker best book of the year it may sound peculiar that a story featuring chapter length text message exchanges and a hysterical egg fight during a gender reveal party could contain such potent moving allusions to philosophy and james joyce let alone be filled with richly observed artistic references reminiscent of ali smith but newman weaves the analytical and the absurd with a raucous grace profound and profoundly sidesplitting bobby finger the new york times book review it s natwest s last day before he leaves for university and there s only one thing on his mind the deeply embarrassing package he ordered to his house which still hasn t arrived he won t leave town without it any alternative is too distressing to consider this is the story of twenty four hours in the life of natwest and his small town odyssey in pursuit of the missing package and yet it s also the story of a middle aged dentist who dreams of being a respected artist but the only thing he can seem to paint is the human mouth and it s the story of a tortured imam involved in a quasi romantic entanglement with the local vicar and an octogenerian mourning the death of her secretive husband and a troubled teenager whose nudes have leaked on the internet it s the story of natwest s obnoxious ex boyfriend and his class traitor mother and her childhood boyfriend and the life changing secrets he knows about natwest s past alternating between natwest s idiosyncratic inner world and the perspectives of the other characters and dazzling in its energy imagination and originality this is an outrageously funny and tenderly moving story about being connected to everyone and everything at all times about love friendship and the lies we tell ourselves about unhappy endings happy endings and whether anything really is as simple as one or the other
