with a foreword by sethaput suthiwartnarueput governor of the bank of thailand central banking at the frontier creating a digital financial landscape comprehensively explores the current digital dynamic era providing insights into the debates that define the evolving financial landscape

the book provides deep insight into theoretical and empirical evidence on information and communication technologies ict as an important factor affecting financial markets it is focused on the impact of ict on stock markets bond markets and other categories of financial markets with

the additional focus on the linked fintech services and financial institutions financial markets shaped by the adoption of the new technologies are labeled digital financial markets with a wide ranging perspective at both the local and global levels from countries at varying degrees of economic development this book addresses an important gap in the extant literature concerning the role of ict in the financial markets the consequences of these processes had until now rarely been considered in a broader economic and social context particularly when the impact of fintech services on financial markets is taken into account the book s theoretical discussions empirical evidence and compilation of different views and perspectives make it a valuable and complex reference work the principal audience of the book will be scholars in the fields of finance and economics the book also targets professionals in the financial industry who are directly or indirectly linked to the new technologies on the financial markets in particular various types of fintech services chapters 2 5 and 10 of this book are available for free in pdf format as open access from the individual product page at routledge.com they have been made available under a creative commons attribution non commercial no derivatives 4 0 license

praise for banking on change in this 140th anniversary celebration book the london institute of banking and finance stick to their core function of educating us all but especially aspirant bankers on the role and concerns of retail and commercial banking in the uk they have assembled a well chosen group of practitioners from a range of professions to write clear and easily assimilable essays no technical expertise required on a wide variety of current banking issues if you want to learn about the current practices and problems of uk retail banking this book must be essential reading charles goodhart emeritus professor of banking and finance at the london school of economics in this important book a line from bill allen s contribution is key nobody can predict the ferocity of the gale of creative destruction that faces the financial services sector true but if you read the many and varied contributions you ll have a pretty good idea moreover you ll understand how we that is bankers got here and what we should do to make the industry more competitive fairer and more genuinely useful it is a soup to nuts look at banking from the early days of the institute of banking through the go go years of ifs to a present and future that are likely to be dominated by technology it is well worth a long read andrew hilton director centre for the study of financial innovation if you were to imagine what a book celebrating 140 years of financial knowledge might contain you could not come up with a better selection than this as well as a historic sweep from no tech to fintech the decline of trust and

the rise of competition today's hot subjects are addressed including sustainable investing cultural diversity and digital identity the cradle to grave nature of the industry is captured in pieces about financial education and pensions and it's well written setting the scene nicely for the next era Jane Fuller fellow of the Society of Investment Professionals financial services are undergoing rapid and potentially dramatic change what will happen in payments in sustainable finance and in fintech how can the industry boost financial inclusion and ensure that its workforce has the skills it needs to meet regulatory requirements and to compete with new entrants can trade finance rise to the challenge of underpinning global trade for all and help the developing world avoid financial abandonment what do financial services need to do to protect our digital identities banking on change provides insights by experts and influencers from across the financial services industry on these and other questions published to mark the 140th anniversary of the London Institute of Banking Finance this book is intended to be of lasting value to both students and professionals

modern electric vehicles EVs are well suited to most people's general transport needs despite this their adoption at a large scale has been grindingly slow what are the reasons for this unlike most books which focus on the technical aspects of EV performance this guide sets out the commercial and political barriers to their increased use and lays out the ways in which these barriers can be overcome it begins by charting the rise of the internal combustion engine and detailing the problems associated with it which are driving efforts to electrify transportation it goes on to introduce readers to the main EV technologies and examines the key issue of energy storage and recharging infrastructure the remaining chapters explore the cost effectiveness of electric mobility the differing adoption trajectories by which EVs may come to increase in prominence and the way in which policy can be tailored to encourage this rise the book covers industrialized and emerging economy contexts the latter of which have the greatest opportunities and most urgent need to take the EV development route requiring no specialist engineering knowledge to understand and written in an engaging accessible style this is a valuable primer and resource for people in business policy or study who are keen to understand encourage and capitalize on the transition to electric mobility
